Please note: Prescription drug costs accumulate toward your medical plan out-of-pocket maximum for all plans and toward your deductible in the Low Plan.

PLEASE NOTE: Members must use the mail order pharmacy for maintenance medications. See page 9 for more details.

Express Scripts Pharmacy

Express Scripts has a network of nearly 60,000 independent and chain pharmacies nationwide. When you visit a participating pharmacy, you will receive up to a 30-day supply after paying the applicable cost share (or a 90-day supply of maintenance medications through the Smart90 Program). Remember to take your Express Scripts ID card with you.

Sign up online at www.express-scripts.com/rx and download the Express Scripts Pharmacy app to your mobile device. You can easily manage your prescriptions, make payments, request refills, and check the status of your order.

Need assistance getting started?

Call [800.282.2881](tel:800.282.2881) and speak with a representative today!

Specialty Medications

Accredo is a pharmacy designed to assist you with your specialty medications used to treat complex and chronic conditions, such as MS and cancer. These medications may be administered orally, injected, infused, or inhaled. Depending on the medication, it may require refrigeration.

Visit www.accredo.com and click “Find a Medication” to get started.

Please note, if you take a specialty medication, you are not automatically enrolled with Accredo Specialty Pharmacy.

MAIL ORDER PROGRAM

EXPRESS SCRIPTS

Smart90 Program

Maintenance medications are provided through the Smart90 Program. Smart90 is a feature of your prescription drug benefit, managed by Express Scripts.

Members have two ways to get up to a 90-day supply of long term maintenance medications (drugs you take regularly for ongoing conditions). You can conveniently fill those prescriptions either through Express Scripts' home delivery or through a participating 90-day retail pharmacy such as CVS or Walgreens.

To get started with Smart90:

- Contact your doctor to write a prescription for up to a 90-day supply. This is the fastest way to get your medication filled!
- Express Scripts will make outreach to your provider. Once you log in, click "Request an Rx" on the right side of the home page, follow the instructions, and an Express Scripts representative will reach out to your provider.
- Your first prescription will ship within 5-7 days after Express Scripts has received the request.
- You may also call Express Scripts at **800.282.2881**. Have your prescription number handy when you call.
- Order online at www.express-scripts.com

Filling Maintenance Medications by Mail Order

- Those enrolled in the **Middle Plan** or the **High Plan** will receive up to a 90-day (3-month) supply at the cost of two retail copays.
- Those enrolled in the **Low Plan** will receive up to a 90-day supply. You are responsible for the cost of the medication prior to meeting your Tier 1 deductible. Once your Tier 1 deductible is met, you will pay 30% coinsurance. Members in the Low Plan may receive greater discounts through mail order compared to the retail pharmacy.

Price Assure

Express Scripts teamed up with GoodRx to help you and your enrolled family members control your prescription drug costs! Express Scripts Price Assure program automatically discounts the price of select non-specialty generic prescription drugs. All you need to do is show the pharmacist your Express Scripts member ID card when picking up your prescription at a GoodRx participating pharmacy. If GoodRx's price is the lowest, that's all you pay! Visit www.goodrx.com to find a GoodRx participating pharmacy close to you.

Compare Prices and Save With GoodRx

GoodRx is still available for select preferred brand, non-preferred brand, and specialty medications. Compare prescription drug prices at local and mail-order pharmacies, and discover free coupons and savings tips. Learn more and start saving today by visiting www.goodrx.com. When you use GoodRx, your prescription costs do not accumulate towards the plan's out-of-pocket maximum and/or deductible.
